**Attention: Rumu Sen
Regulatory Policy**

Dear Rumu Sen:

**Re: Canada Energy Regulator Review of the Rules of Practice and Procedure
Comments from the TC Energy Pipelines on the Summary Report**

On September 9, 2024, the Canada Energy Regulator (CER) launched a review of the Rules of Practice and Procedure (the Rules) where it sought feedback from Indigenous Peoples, landowners and stakeholders on potential amendment areas and improvements to the Rules.

The CER issued a Summary Report in September 2025 which reflects the comments received during Phase I of engagement of the review, which has been reviewed by TransCanada PipeLines Limited, NGTL GP Ltd., as general partner on behalf of NGTL Limited Partnership, Foothills Pipe Lines Ltd., Trans Québec & Maritimes Pipeline Inc., and Great Lakes Pipeline Canada Ltd. (collectively referred to herein as the “TC Energy Pipelines”).

The TC Energy Pipelines continue to support the CER’s review of the Rules with a view to enhancing competitiveness through predictable and timely processes and modernizing practices and procedures to create a more streamlined and effective regulatory framework.

The TC Energy Pipelines underscore the importance of incorporating provisions into the Rules and amendments that foster these objectives and look forward to reviewing the draft regulations once they are published in the Canada Gazette, Part I.

Please contact me if the CER requires additional information with respect to this submission.

Yours truly,

**Foothills Pipe Lines Ltd.
Great Lakes Pipeline Canada Ltd.
NGTL GP Ltd., as general partner on behalf of NGTL Limited Partnership
TransCanada PipeLines Limited
Trans Québec & Maritimes Pipeline Inc.**
